

Data Driven Technology

Hope for an Ailing Behavioral Health System

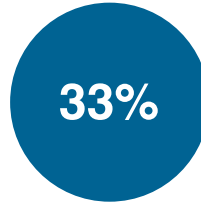

Troubling Facts

Adults in the U.S. living with a mental illness.¹

Percent of adults with mental illness who receive treatment in a given year.²

Increase in suicide mortality between 1999 and 2017.³

Data-Driven Clinical Improvements

- Expands access to care
- Provides decision support for measurement-based care
- Enables more accurate assessments, diagnosis, triage, and treatment
- Drives more effective care collaboration
- Reduces cost of care

Data-Driven Operational Improvements

- Streamline utilization management reimbursement
- Facilitates accreditation
- Supports quality improvement initiatives
- Helps identify and track service line health
- Provides a strong foundation for value-based care

About Owl

Owl is the leading provider of precision care management solutions for behavioral health. Through its advanced cloud-based platform, the company offers a scalable and sustainable strategy to integrate measurement-based care, clinical decision support, and data insights into existing treatment workflows across all behavioral health conditions. Owl enables behavioral health and primary care providers to expand access, enable telehealth, and improve quality care delivery, while reducing risk and enabling value-based care. Leading organizations, including Main Line Health, Amita Health, Inova Health, West Yavapai Guidance Clinic and Aurora Mental Health Center, use Owl to improve clinical and financial outcomes.
